The expansion will be done by acquiring a number of facilities which Tata has acquired during the last year. This year, the company has added the capacity of 2 million tons at one of its plants in Pennsylvania and another plant in New Jersey has been acquired. The plant in Pennsylvania is located in Bethlehem, Pennsylvania and New Jersey's plant is situated in Port Reading, New Jersey. The new addition will increase the production capacity at these two plants by 4.2 million tons. As part of the expansion, Tata plans to raise its capacity to 12.5 million tons from 12.3 million tons. The increased capacity will help the company in meeting its needs in the steel industry in the United States, which are slowly being increased. The U.S. has emerged as one of the leading markets for steel in the world. The steel demand in the country has been growing year-on-year, and the United States now accounts for one-third of the global steel demand.Percy Walsh Percy Walsh (born 19 November 1958) is an Australian businessman. Keyboard shortcuts for AutoCAD 2023 New shortcuts are configured to mimic the default Windows keyboard shortcuts for Windows 7/8/10, with few exceptions. Keyboard shortcuts for Windows shortcuts are configured to match AutoCAD's default shortcuts. To use a new shortcut, map it to the keystroke in your OS-specific Keyboard preferences. NOTE: New shortcuts are only available in Windows XP, Windows Vista, Windows 7, and Windows 8. Windows 10 does not yet support new shortcuts. You can read more about configuring keyboard shortcuts. Example: you might map Q to Ctrl+Q to control your workspace. AutoCAD Help: New Windows Help topics and new topics will be added as needed. For more information, you can read the ChangeLog file. New Style Topics: The new topics are categorized into the following types: Architecture & Interiors Cables & Structures Display Files & Text Graphic Assets Input & Tracking Measurement & Scale Other Programming Styles & Objects Sketch Text Tools Useful links: What's new for AutoCAD 2023 in the next version will be posted as it becomes available. Release Notes: Style and Feature Updates A new style icon, Style Group, has been added to the ribbon. This will help you to quickly see all styles grouped by style group. You can select a style group from the Style drop-down list in the Properties palette. When you create a new drawing, you can apply a style group by choosing one from the Style Group list in the Styles and Transformations dialog box. You can also apply a style group with the New Style Group command. The help topics listed in the table above are new in AutoCAD 2023. Option names and values are not changed in a style, but you can use the Parameter value to hide the Options value in your drawing's Properties palette. You can access the Parameter option (choose Format, Options, Parameter) in the Options palette. It is possible to change the Parameter value in the Properties palette. However, you cannot change any options, including the scale, unless you're in a group. The style editor displays
