FTP Password Recovery Master is a software that will recover lost FTP passwords. The goal of this program is to provide a solution for people who've lost their FTP passwords. This program will recover FTP logins and passwords, which were forgotten or lost. It is a handy tool to revive password protected connections without the necessity of your computer being connected to the internet. Unlike many other similar programs, this one is designed to recover FTP passwords from all versions of FTP clients - Far Manager, Total Commander, CuteFTP, WS\_FTP, FileZilla, FTP Commander and SmartFTP. FTP Password Recovery Master Features: 1- Supports multilingual FTP logins and passwords. 2- Supports protected FTP logins and passwords. 3- Supports backward compatibility with a wide range of supported FTP clients. 4- Saves recovered FTP passwords to a text file. 5- Copy

---

FTP passwords to clipboard. 6- Free trial version is available. The password is the key to access the protected resources on the FTP site.

FTPPasswordRecovery recovers all the FTP passwords stored on your computer. It can recover logins and passwords from the following formats: FTPS - CONNECT request (when the client requests that a connection be established with an FTP server using FTPS - CONNECT command). FTP - active mode (when the client initiates a connection to the FTP server). This amazing tool is simple, use any FTP client, and within seconds you'll have all the logins and passwords. Q: Calculate the total cost of required number of bathes A type of a "bathe" is described in detail by the following table:

type of bathe	cost of a bath	time of bathing	required number of bathes	amount of bath

For example, if a

---

person wants to bathe 2 times, and the bath cost 10 Euro, and if 1 Euro is required for a bath, and if we assume that it takes 30 minutes to bathe, then the bath should take about  $30*2*10*1=60$  minutes, (which in turn would mean that the
