**Fitorg Crack Activation Key Free For Windows**

**[Download](#)**

Fitorg For Windows 10 Crack is a reliable application that allows you to easily manage your fitness club or gym business. The tool allows you to manage both the customers list, as well as the product inventory at the same time. Neat looking interface, database support Fitorg features a small, simplistic interface that allows you to access secondary menus and customize the number of subscription cards, database, receipts, payments or reports. The main window also includes a simple, yet powerful searching engine, which allows you to find products by barcodes or customers by their ID number. The databases can easily be modified, by adding entries, editing existing items or removing them with a few mouse clicks. The database usage resembles the Microsoft Access, meaning modifying the entries

---

can be accomplished on the spot, with one or two mouse clicks. The program can automatically update the database at the end of each day and thus avoid data loss. Network support and additional functions Fitorg features the client-server system, which allows you to use it in a network and remotely modify the entries. It can be installed on any computer in a local network and grant access to other users. The application is protected against unauthorized use and you need to log in to access the information, using a username plus password. The program enables you to monitor the products inventory and easily manage. You may add ID numbers to each product, as well as specify its price, then create payment slips for your customers. The application can also generate reports on customers, charts, birthdays and sales. Suitable tool for your business Fitorg can come in handy for any business manager who runs a gym, sports,

---

fitness club or health center. The program features several automatic functions such as fill in the tables after each payment or generate the daily reports. You can export the data to local files as Access databases, Excel worksheets, in HTML or PDF format.

Q: How to get the name of the last created document of a group? I have my application based on MS Word. I try to implement workflow like this: User opens document (or other document) Then, the document opens this workflow. When the workflow finishes, the user must save the document (it's not yet saved). But I must save the document first. In order to save the document, I need to access the last created document of the group (only one document can be inside a group). Here is my code for getting the last created document
