Poker Blind Timer

It is a 100% free Poker app to help you receiving sound notifications after a specified time. Poker Blind Timer is a lightweight application built specifically for helping poker gamers use a countdown timer in order to be notified when blinds are increasing. It sports a clean and simple interface that gives users the possibility to set up the timer by specifying the time (in minutes). When the time is up, Poker Blind Timer plays sound notifications. What's more, you can pause or resume the countdown timer. Additionally, the application enables users to specify the number of blinds and reset the timer. Since there aren't any configuration settings, even less experienced users can master the entire process with just a few clicks. On the downside, you cannot upload a local audio file from the computer, nor change the notification system by making the program display a message or show popup windows. During our testing we have noticed that Poker Blind Timer carries out a task quickly and no errors showed up throughout the entire process. It remains light on the system resources, so it doesn't hamper computer performance, nor interfere with other programs' functionality. To sum things up, Poker Blind Timer offers a simple software solution for helping you receive sound notifications after a specified time. It can be easily configured and installed by all types of users, regardless of their experience level. **Poker Blind Timer Features:** * Supports countdown timer by specifying the time (in minutes) * Plays sound notifications * Allows users to pause or resume the countdown timer * Allows you to specify the number of blinds to be played at the end of the timer * Allows users to reset the timer * Comes in a .pak file format * No configuration settings * Updated: 21-May-2016 **Poker Blind Timer Requirements:** * Win XP SP2 or later * 80 MB of free space * 2 MB of RAM * 50 MB of free space to install the program * For the best performance: A sound card is recommended * To run the program, it is necessary to be connected to the Internet (required for downloading the necessary files) * Compatible with Windows 7, 8 and 8.1 * Compatible with Mac OS X 10.4 and 10.5 **Install Poker Blind Timer:** 1) Copy PokerBlindTimer.pak file to C:\Users\YOUR_USER_NAME\AppData\
