(C) 2015, Charles & Zuhaib Baniyan Hello guys & welcome to my new site! I would like to discuss about the Review Crew. I have selected for this site has a lot of reviews. So many reviews in fact that I thought it would be nice to do a separate review of it. The review crew is, in my opinion, one of the best sites to find High quality products. The websites you visit, if you are going to buy the product, you will probably not get what you really expect. So this was my reason why I decided to start. Hello! It is time for some important and helpful information! Important Information All reviews on this site are my own opinion and should be treated as unbiased and uninfluenced, I have never experienced a single product that I reviewed, however I have always thought that if anyone wanted to use them they would enjoy it. I do not work for this website in any way and I have no link to anyone. A lot of people think that I do, if you want to know more you can look me up. Let's go to the part where you request for information. You will receive this from me as soon as possible. Let's start with some of the information I have. Organizations I work for Here are the companies that I work for. Review Crew The Review Crew has been mentioned a lot lately. This is because we have reviewed a lot of stuff. Unfortunately this

has made this site look like it has no credibility. I am a lot of great reviews and we have a lot of positive comments to our reviews. The huge number of reviews make people think that we are trying to promote products. That is not the case. We review things because we want people to have a fair and unbiased opinion. If you believe that I do not represent the website, you can look at my previous reviews. I was banned from YouTube I was posting videos and when I found out that I was banned from YouTube for a good cause, I decided to start again. I think it would be interesting to have a video review. Now is your chance.
