Software platforms: Microsoft Windows 2000/XP/2003/Vista Linux/Unix(Debian) Macintosh OSX Mac OS 9 Windows CE Mac App Store License: The trial version of SpeechZilla has 30-day free trial. It is limited to one-time use. You can purchase SpeechZilla Standard version for US\$2.99. There is a discount available for those with multiple licenses. Free updates will be provided for one year. Babel is a text to speech software for Windows. It can be a TTS server for the rest of your PC's. It can be used as a speaker with Windows Media Player. On the Mac it can be used as a speaker with QuickTime (now called "Moville"). The Mac version also includes SpeechSynthesizer (which requires the additional cost of the application.) Windows free Babel came with IE 4 and later, but was removed from IE 7 Babel is a software that can play audio files through Windows (also runs through Macintosh, but not Quicktime Moville version.) This software can handle.WAV,.MP3, and.WMA audio files. Babel also can speak text as synthesized speech. This can 09e8f5149f

SpeechZilla is easy to use yet powerful software, helping people to get better productive in their daily works, such as reading reports, writing papers, preparing reports, editing documents, listening to T.V, etc. SpeechZilla lets you quickly read out those boring documents, reports, writings, and any files with any document formats you get from web, disk, memory cards, etc. Through a few clicks, SpeechZilla is ready to speak text for you from cursor position or from the whole document, or read text with all your favorite selected texts. It even has a feature to read text in the screen magnified so that your eyes can relax and you can see more easily the text on your screen. SpeechZilla can speak with not only men's and women's voices and international languages, but also the accents of the AT&T Natural Voices can be applied. In addition, the sophisticated interface enables you to customize your own toolbar easily. This powerful reading tool lets you read in continuous play, stop and go speech, control the speed and volume easily. You can switch your favorite voices quickly and easily. As the popular applications, SpeechZilla can read in nine popular formats: Word, Powerpoint, Excel, PowerPoint, PDF, RTF, PPT, MHTML and HTML. Answers to frequently asked questions: 1. Does it have a lot of man and women voices? Yes, our sound library has a lot of voices and dialects, they are all natural voiced. 2. Can you turn off the highlighting when you read? Yes, you can toggle the highlighting on and off. 3. If there is a letter/symbol that I need to understand or learn, is there any way to get it? Yes, every voice file in our library can be translated. For example, you can request AT&T to add Chinese word meanings, or Spanish word meanings for your speakers. 4. Can I play the spell checker or any error correction? Yes, you can toggle the error correction for the selected text on and off, or pause the audio for the selected text when you have the spelling error. 5. How do I get the AT&T natural voices? First, you need to download our free AT&T Voices and Voices Player software, and you can start your free trial, then you can choose from over 20 dialects and select your favorite voices. 6. Can you
