What's New In?

Digg RSS Reader is a light-weight and unobtrusive RSS Reader with which you will stay up to date about stories on Digg.com, news or other sources you select. With the usual feed readers, you often need to visit a website, select a feed, wait for all the contents to load and then read them. All of this can take you some time, and it can be cumbersome to switch between the applications you use for the things you have to do. With Digg RSS Reader, this is all you will have to do: after you have downloaded it, it will update automatically. The program also displays the latest articles on digg.com, news and other websites you select. The main feature of Digg RSS Reader is that you can read RSS feeds without an internet connection. You can also preview articles on some feeds, and you can read articles right inside the application. Digg RSS Reader Download Link RSS Reader Review Features: Helpful with small screens. Uses almost no memory. You can remove Digg RSS Reader safely. Trial Version available. Also see related articles on: www.bkslv.com/readers for other RSS readers; and www.bkslv.com/apps/screensavers for other screensaver applications. Compatible with iPhone 4 Digg RSS Reader by korbi.com Description Digg RSS Reader is a useful application that will help you read the latest headlines from digg.com. Due to this software utility, you will always be notified of the latest news, images or videos listed on Digg.
