A professional version of Photoshop. Adobe Photoshop is a powerful and advanced image editing program for people who create images. Most people who are not professional photographers use the application. Free Adobe Photoshop software is available for both macOS and Windows. Adobe Photoshop vs Elements Adobe Photoshop has traditionally been considered the standard for professional-level digital imaging software. Photoshop is a powerful and feature-filled graphics editor that creates or manipulates images. Adobe Photoshop Elements is an alternative to Photoshop. It is a low-priced alternative to Photoshop and is more suitable for hobbyists, less experienced photographers, or those not prepared to pay for Photoshop. Adobe Photoshop has a feature-laden interface that assumes you know how to use the software. For example, you have to select objects or tools to add text, insert an image, or edit text. On the other hand, Adobe Photoshop Elements includes a feature-filled interface that assumes you know how to use the software and does most of the work for you. If you're more of a beginner or a person who doesn't have a lot of money to spend, then Adobe Photoshop Elements is a great choice for you. Adobe Photoshop has powerful features, such as RAW and CMYK editing. You can create layers and other objects while editing. On the other hand, Adobe Photoshop Elements is primarily focused on creating and editing images. Adobe Photoshop Elements lacks the many advanced features that the more popular Adobe Photoshop has to offer. Design and image editing. Adobe Photoshop Elements is aimed at hobbyists and those who just want to create great-looking images. Elements is designed to be easy to use and quick to learn. However, it lacks the power of Adobe Photoshop for creating and editing advanced images. Some people who use Elements also use an application like Adobe Photoshop (or Elements) for design and image editing. How much do you know about Adobe Photoshop or Photoshop Elements? Some may say Adobe Photoshop is only for graphic designers and Photographers, some may say that Photoshop Elements is only for photographers. However, when you take a look at the features of each application you'll see that Photoshop Elements and Adobe Photoshop offer the same basic features. There

]: Tossing the Government's argument out, the Court of Appeals found that the evidence was not compelling enough to establish that the class members would expect to be involuntarily sterilized if they did not submit to a mandatory IUD insertion. In fact, the Court noted, the evidence indicated that although such a policy might be applied to J.L., it was more likely to be applied to individuals who were not yet members of the class. *Id.* at 324, 491 S.E.2d at 735. The Court found, thus, that the government failed to prove that J.L. or others in her class would have a reasonable expectation that they would be subject to a forcible IUD insertion when they failed to submit to a mandatory IUD insertion. The Court of Appeals, therefore, reversed the decision of the district court and remanded the case with instructions that J.L. be declared not to be a dependent child for purposes of the FDP Act. *Id.* at 326, 491 S.E.2d at 736. [6] The FDP Act allows the fee awards in all cases involving the custody or visitation of the children. See N.C. Gen.Stat. § 50-13.6(j)(1) (1999). [7] The Court held that the North Carolina Constitution granted trial courts the discretion to award child support even where the parents' marital separation has terminated by death or remarriage. Compelling matters, however, may require support, and there is no constitutional prohibition against a court to issue an award of support to a party not determined to be the dependent child of a spouse. See *Adams*, 356 N.C. at 124, 568 S.E.2d at 110. [8] The Court held that the remarriage of a deceased parent did not in itself require the deduction of the parent's child support arrearage from the survival beneficiary's share of the parent's estate. See *Adams*, 356 N.C. at 123, 568 S.E.2d at 109. Thus, if the dependent child of one spouse survived the other spouse, the surviving spouse was entitled to support from the deceased parent's estate even though the deceased parent had other children and any support payments were owed directly to such other children. See *id.* [9] Assuming the Supreme Court's *Adams* decision could be said to prevent a survival beneficiary from garnishing a claim for support accrued prior to

Oh my gosh, where to begin! (I've been reading this thread for almost a week now and just had to write - hope that's ok) My MS has been relatively mild for the last 5 years or so. I don't have any of the symptoms that MS is associated with - no weakness, balance issues, trouble walking, numbness, pain, etc. Last summer however, I developed what seemed to be a minor migraine and my head began to "pop" with pressure. The pain was excruciating and lasted for over 24 hours. When it first started, I just assumed that was what migraines were like, but this was NOT a migraine. I now know that migraines are bad enough (like someone falling over and hitting their head on a rock) but to have a head that is TOO heavy to hold up? It was like when you pick up a rock and you notice all the weak points and the places where the rock will give in to gravity. I just kept thinking that it was a rock in my head that was making me feel that way and it could not be true. I had a neurologist, he sent me for a spinal tap and CT scan and that seemed to confirm that I was dealing with a MIGRAINE. I'm still amazed at how many people have migraines and never realize it. I was shocked at how weak I felt during the days I was in the hospital and how much my body ached afterwards. It made me realize that there is no way that I would be able to continue my MS without the help of any medications. It's been about a year since that happened and I haven't had a migraine since. The head pressure returned twice more, once last summer and once about two weeks ago, but neither lasted more than an hour or so. I didn't tell the neurologist the second time and it was just like that first time - they sent me for a spinal tap and CT scan
