A: I just solved the problem : I changed the build action of JxBrowser from None to Content. I added the following code in the OnLoaded method in the xaml page: Code:
`if(!JxBrowser.IsBrowserInitialized) JxBrowser.LoadUrl("about:blank");` Hope this helps. Transactions I find that I forget the names of several people. I am getting better at it, and have some things I've been keeping for them, but it is still hard. The first is "Phil Caban" but I can't remember if it is a pet name or his last name. "Faye Fliger" You could have meant Faye Fischer, the character in Harry Potter, but she was indeed a mean girl and certainly not the friend that Ginny Weasley was. And of course "Ronald Weasley" but no, it is not his last name. :) You reminded me of a conversation I had with my Aunt Mary. Her Mom had died years ago, and she thought of her Mom as Anne (her sister was "Mary" and my aunt). Anne had passed away long before my aunt was born, and Mary died a few years ago. One day, Aunt Mary asked for a hug and hugged her very close. Her nose was on my aunt's cheek. I asked, "Which one was the hug from?" She replied "It's both of them". I never forgot it! I find that I forget the names of several people. I am getting better at it, and have some things I've been keeping for them, but it is still hard. The first is "Phil Caban" but I can't remember if it is a pet name or his last name. "Faye Fliger" You could have meant Faye Fischer, the character in Harry Potter, but she was indeed a mean girl and certainly not the friend that Ginny Weasley was. And of course "Ronald Weasley" but no, it is not his last name. :) You reminded me of a conversation I had
