As the name suggests, the protagonist is an Elden Lord who has the ability to wield the power of the Cracked Elden Ring With Keygen and utilize unique magic. Once a common hero, he now finds himself in the Lands Between, which is a fictional world that has separated from the Surface World (game world). During the journey to the surface, he will encounter various monsters and overcome challenges. In addition to fighting by himself, he will also be able to interact with others via online. * Please note that the game is still in development, and its content may change. ABOUT BRAVE PLANET Brave Planet is a social game in which you, as an Elden Lord, receive quests from other players. After completing quests, you can exchange the items you obtain with other players. In other words, you will act as an intermediary who helps other players by carrying their items. You can create a character that suits your play style in a variety of ways, and you will be able to freely exchange items you obtain from quests with other players. By getting involved with other players, your goals will change in line with their requests. You can even work together with other players to defeat monsters and attack opponents. While quests are being distributed worldwide, you can also support the development of the game by joining the beta test. QUEST SYSTEM The new game features a quest system where you are rewarded for your efforts, and by clearing quests, you can obtain items and experience. During the course of an adventure, you can assign up to 3 quests at a time, and you will be able to give quests to other users. When you choose to give a quest to a player, it will appear on their profile page. When you encounter a situation where you cannot finish your quest by yourself, you can offer to help another player by giving them a quest. The player who asks for help will receive an item known as an item of request. At the same time, a quest will also be given to you. You can receive quests until the final stage of the quest, and you can engage in asynchronous conversations with other users (offline). Upon receiving a quest, you will be able to check the quest details on the map. If you click the quest name, a pop-up window will open, and you will be able to see the quest details, including the setting where you can give the quest. If you then decide to accept the quest, you will be asked to
