### Kidz CD 1

Kidz CD 1 is a complete "Kidz Navigator" with videos, games, stories, lyrics and TV and sound. The book is lavishly illustrated with funny animations and kid-friendly, simple but entertaining graphics. The book will be the first thing little children see and it will introduce them to all the great possibilities the Internet offers for their amusement. This is how it works : - The page has been optimised for little children, who have not yet learnt to read. - There are no buttons or graphics that would be inaccessible to them. - The site must be child-friendly. In that respect, the Kidz Navigator is perfect since it automatically selects the optimum site for the ages of the kid under consideration (ages being from 1 year up to 6 years). - Each site contains a box within a box, the outer box (kid size) includes the navigation buttons and the inner box (kid size) contains the actual content. - A link to the child's chosen site is created in the navigation box, allowing the little explorer to remain at the same place. - The link to the site selected automatically changes according to the kid's age (When the navigation buttons are pushed, the link is set to the previous or next page) - It's also possible to browse through the icons (from left to right), to open a favourite, to send a message, etc. - An extra bonus on Kidz CD 1 : The pages are animated, there is an animation, a character whose voice is recognisable by children : a penguin with a penguin hat who sings songs and tells stories. This means that all you have to do to entertain children is to press "Play" on Kidz CD 1 and it will launch the animation. A child can have a free time without having to leave the Kidz CD. Pressing the "Next Page" button, will take him to the next one. If the kid's energy is low, the "Pause" function can be activated. It will temporarily stop the animation and let the kid rest. Kidz Navigator Comments and Criticisms : - Only one person at a time can access a website via Kidz Navigator. The application and all the content offered by the Kidz Navigator will be accessible from the phone of the same user. - The mode of access via Kidz Navigator is from left to right (from icons to navigation buttons aa67ecbc25

As with many software programs, I had to put this in gear and get it running on a home Windows XP Pro and it works beautifully. I had three friends who have started using it after I did. I haven't gotten any complaints and they are all very happy with it. The program looks great, is easy to navigate, and the price was great! Written by bruno, dated August 18, 2007 "I cannot be happier with my order. In particular, Kidz CD 5 is a great tool. I purchased it as part of the package for my home. I have had few complaints and my daughters now enjoy browsing the sites of their own choosing to their liking
