A tool designed to help fine tune selfies and enable you to get the most out of a picture, regardless of whether you are enhancing a selfie to upload on social networks or working on somebody else's portrait. Allows automatic detection of skin, hair and even background After a swift and uneventful installation, you can load a single image or a batch of photos for processing. The interface is user-friendly and consists of two main sections, one where you can preview a comparison of the original and edited image and the second panel where you can find the settings. You will be happy to learn that the tool is designed to automatically detect the faces in the pictures, so you can get to enhancing them right away. The tool also offers suggestions on the important points to account for when retouching a portrait image. Therefore, it is suitable for everyone, including those who never used similar software before. Allows you to tweak every single aspect of a portrait The strong point of the program stems from the dozens of editing options available that allow you to get professional results effortlessly. Therefore, you can enhance a portrait or selfie via face sculpt, changing the eyes and eyebrows, retouching the mouth shape, plump lips, nose, facial expression and hair volume. In case you change your mind, then you can reset to the original photo with just one click. Moreover, if you prefer a very fast photo retouching or do not have too much time for editing, then do not hesitate to check out the presets available with PortraitPro.Q: How to determine whether "a" and "b" are congruent modulo "n" if " $n > 3$ "? If  $n=7$  and  $a= -1$  and  $b=2$  How do I determine if  $a$  and  $b$  are congruent to one another modulo  $7$  if  $n > 3$ ? A: Let  $n=7=4 \cdot 1 + 3$ , then if  $a$  and  $b$  are congruent modulo  $7$  we need  $a \equiv b \pmod{4}$  implies  $a = b \pmod{4}$  Now since  $a = b = 2$  is not possible as  $3/4$  is not an integer. Q: CSS, HTML - Full screen image I am trying to make a fullscreen image with CSS but I want something that looks more elegant  $b7e8fdf5c8$
