By using IDM Serial Key you can Download video, music files from various websites.Q: How to configure keystore to send push notifications on Android emulator? I have Android Studio project, with Gradle 2.3. There are some dependencies with Google Play Services (7.2.0) I have already tried to do this: 1) Add the google-services.json file into /myproject/app/, add there target for "Google Play Services" 2) Add to app/build.gradle the following: allprojects { repositories { google() jcenter() } } I have added the SHA1 key manually into firebase console. The project was built and I had added to app/build.gradle this: apply plugin: 'com.
