Adobe Photoshop CS6 and earlier The PSCCS5 edition of Photoshop continued in the traditional method. After that, they abandoned the Wacom and switched to mouse methods, which would be more familiar to most users. # DRAWING IN THE BACKGROUND AND BACKGROUND INSPIRATION To make the traditional drawing-and-painting method more interactive, Adobe offers the option of painting in the background. With the selection tool active, you can use the background area as a paintbrush to fill in the area underneath the selected object. The Photoshop Filter → Artistic Edge filter works best when applied to an image without objects in the background. The filter converts the background into a gray color with some black, gray, and white shape edges. Here's how to work with the Photoshop Filter → Artistic Edge filter: 1. Load an image into Photoshop. 2. Activate the filter by going to Filter → Artistic Edge → Artistic Edge. 3. Choose the Creative Edge preset color (see Figure 7-9).

Since its release as an online desktop app in October 2005, Photoshop Elements has become increasingly powerful over the years. Many Elements users now use it as their primary tool for graphic design, but others use the software alongside Photoshop in a sort of Photoshop/Elements hybrid workflow. In this post, we are introducing to you the top free Photoshop and Photoshop Elements alternatives available to you on the internet. What Is a Photoshop or Photoshop Elements Alternatives? A Photoshop alternatives, or Photoshop cutover tools, is a program that can perform the same tasks as Photoshop. Usually, when working on graphics in other programs, you save the file as PSD (Photoshop file extension) to then open in Photoshop Elements. Alternatives are the same as Photoshop cutover tools – except they work as Photoshop cutover tools and not as standalone software. When you save the file in Photoshop Elements, there's no Photoshop file extension and hence no way to open it in Photoshop. This is the main difference between Photoshop alternatives and Photoshop cutover tools. In order to use Adobe Photoshop alternatives, you need to have them installed on your computer. This would usually be the case, with some programs, such as editing software or media management tools, but sometimes, you need to install Photoshop or Photoshop Elements itself to use the software. So, Photoshop and Photoshop Elements are Photoshop alternatives because the software file extensions are different. Adobe Photoshop alternatives are also known as Photoshop cutover tools. The most popular Photoshop alternatives are these: CyberLink PowerDirector is a video editing program that supports the ISO-MP4, MJPG-4, JPEG, BMP, TIFF, GIF, MPEG-4, and AVI formats. The software also supports many portable devices. It comes with a 16-bit depth, but supports all layers, from alpha channels to clipping masks. It comes with more than 200 different filters, including the all-purpose Artistic Mode, which is included with all of CyberLink's products. It is a bit different from Photoshop with its feature-rich interface and the absence of layers. ANAHEIM, Calif. – Chris Pronger is well aware of what the general managers of the Canadian teams think of him. The 29-year-old defenceman and pending unrestricted free agent has plenty of offers on the table – just not from any NHL team located south of the border. “I’m hearing from teams in Canada that they like what they see, but it’s just so hard to see a true path to a Cup,” Pronger told Sun Media during an interview on Wednesday. “I’m hearing from teams in the United States that I’m on the radar, but not at a Cup level and not where I could play and not at my full capacity. It’s hard to see that (a Cup) in Canada.” Pronger, who is coming off of a Stanley Cup championship with the Anaheim Ducks, has been a key cog on a deep Blue and White defence the past couple of seasons. On Wednesday, he showed off his skill set against Russian forward Pavel Datsyuk and the Tampa Bay Lightning. “I’m sure when they look at our team they’re kind of looking at what kind of offensive ability we have on the team,” Pronger said. “They’re probably looking at that or maybe our top-end offensive ability and how we can be a fast team. “So, I think they look at us and they might look at me as a defenceman that they’re going to use on the penalty kill because he can win on the forecheck and he can really skate. So, that’s probably what they see. I like to think that we can challenge teams in scoring and putting pucks on net and doing different things and hopefully winning games in different types of situations.” The last time Pronger played hockey in Canada was during an all-star game that the former St. Louis Blues defender participated in just before the lockout. He has since played for the Minnesota Wild, Edmonton Oilers, Philadelphia Flyers and most recently the Anaheim Ducks. Now, Pronger wants to return to his roots and play in the NHL. He has been in a contract year the past couple of seasons, so he is ready to take on a bigger role on a number of NHL teams. “I don’t

83 F.3d 427 NOTICE: Ninth Circuit Rule 36-3 provides that dispositions other than opinions or orders designated for publication are not precedential and should not be cited except when relevant under the doctrines of law of the case, res judicata, or collateral estoppel. Gary William MAKASIK, Plaintiff-Appellant, v. Shirley S. CHATER, Commissioner of Social Security Administration, Defendant-Appellee. No. 95-35367. United States Court of Appeals, Ninth Circuit. Argued and Submitted April 10, 1996. Decided April 26, 1996. Before: BROWNING, REINHARDT, and FERNANDEZ, Circuit Judges. 1 MEMORANDUM* 2 Gary W. Makaskik ("Makaskik") appeals the district court's summary affirmance of the denial of his claim for Social Security disability benefits. We have jurisdiction pursuant to 28 U.S.C. § 1291 and affirm. 3 * Magistrate Judge Hedges, who recommended that summary judgment be granted, based his decision on the following factors: 1) that the Appeals Council had reviewed the ALJ's decision and affirmed it after considering the entire record; 2) that the ALJ had considered all of the evidence and properly determined that Makaskik had the residual functional capacity to perform light work; and 3) that Makaskik's claims were rejected because the ALJ found that he was not totally disabled, but Makaskik had the residual functional capacity to perform light work. 4 The Secretary, through the Appeals Council, agreed with Magistrate Judge Hedges on all three points: 5 1) The Appeals Council had reviewed the Administrative Law Judge's decision and found the ALJ's findings were supported by the evidence and that no errors needed to be corrected; 6 2) The ALJ had applied the proper legal standards and his decision was supported by the evidence; and 7 3) The ALJ had properly rejected Makaskik's claims that he was totally disabled due to a medically determinable impairment because he retained the residual functional capacity to perform a full range of light work. 8 Makaskik argues on appeal that the ALJ improperly relied on the testimony of a vocational expert ("VE"), who testified that Makaskik could perform a full
