autodesk revit architecture 2014 ita torrentQ: When Should a Moderator Accept a Comment? This is a follow up to my question about the close system. I have been trying to help close some non-answers, but it seems as though my actions are not being seen by any moderators. Specifically, the question I was closing was removed about 24 hours after it was posted. The reason for the removal was that a moderator removed it, but this was not posted in the comments section. Can a moderator comment in a relevant question and explain why they have closed it if it is a valid comment? When should a moderator accept a comment on a post? A: Moderators can post comments on a question or answer. When they do this, the comment is posted asynchronously and a notification is issued, that includes the post ID of the comment. Q: Number Theory equivalent sum Show that,
$$\sum_{j=1}^{n-1} \cos\left(\frac{\pi}{j}\right) = \frac{n+1}{3}$$

This is very easy to show using Taylor series, but I was wondering if there is any way to see this using Number Theory. A: It's just $(n+1)\zeta(3) - \frac{2}{3}\zeta(2)$. The sum $\zeta(n)$ of the reciprocals of the positive integer n is known to be $1/n$. It follows that the alternating sum of the reciprocals of the first n positive integers is $-\frac{2}{3}\zeta(2)$. But $\zeta(2) = \frac{1}{6}\pi^2$, so the alternating sum of the reciprocals of the first n positive integers is $-\pi^2/3$. The claim now follows from $\sum \cos(\pi/n) = \pi^2/3 - \pi^2/n$. Treatment of aneurysms associated with atherosclerotic lesions in the wall of the abdominal aorta by surgical excision. Aneurysms associated with atherosclerotic lesions in the wall of the abdominal aorta are rare. We have operated on seven
