FIFA (from FIFA Football) is the world's leading soccer simulation video game series published and developed by EA Canada in association with EA Sports. The franchise includes the long running FIFA World Cup series and also released FIFA 13. What is FIFA Ultimate Team? FIFA Ultimate Team is a new way to play that combines your favourite club, your friends and global skill to create a team that will dominate any competition. FIFA Ultimate Team features three modes: LIVE TRICKS®, TEAM MANAGER and CLAIM YOUR TROPHIES. How do FIFA Ultimate Team and FIFA 22 features/new game modes related to Ultimate Team differ from a standard FIFA game? FIFA Ultimate Team is powered by Football, an all new EA SPORTS innovation that lets every player be more than a button masher. Instead, it brings you closer to the game by turning the ball in your favour with unique FIFA animations, adapts to how you play and allows for more tactical decision-making. It's different than how you play a traditional FIFA game and it fits the way you play the game. We call this experience the Football experience. Today's game features enhancements to LiveTricks which allow for customization of the game to the user. This includes the ability to set the number of days between matches, the ability to change the weight of the ball during a game, the option to enable the ability to pick up the ball when controlling the team or able to use a quick pass, the ability to enable the ability to play a pre-match warm up and ability to change team formation. How is FIFA Ultimate Team based on Ultimate Team in real life? If you are familiar with MLS and in-game player cards, you will be able to see how we have changed the roster, included various real MLS players, copied the card format and enhanced the game play. This is exactly what happens in the real game. The team manager in Ultimate Team will also have a distinctive manager in FIFA 22, who is the ultimate manager that requires tactical decisions to win matches. What are the main features of FIFA Ultimate Team? Ultimate Team allows you to build your dream team using cards that you earn as you play. There are more than 10,000 cards to collect and we continue to expand the roster in a way that fits the way you play and supports the game experience. Action-packed new gameplay features FIFA 22 will include a host of revolutionary new gameplay features. Players are in complete control of the action. They now have more control over where and how they shoot and manoeuvre, allowing players to take more free kicks and set pieces. Tackle is also a lot tougher than in years past, with players having to balance the tricky art of dribbling and holding opponents at bay. Subtle improvements and additions to the ball-control system add more possibilities to play through unexpected angles and chip passes. The AI is also a lot smarter with smarter movement, smarter pressing, and smarter positioning. In defence, both individual and collective communication is improved. The refereeing team can assign specific instructions to the assistant referees for particular situations, allowing the team to communicate much faster and more efficiently when a foul is committed. The offside line has been improved to make the game more intuitive, ensuring that players can switch on and off with a single hand. A super closeup shot review system is now in place, allowing players and coaches to go back to the bench and question decisions in extra time. Brand New Commentary Ever wonder what the commentators were saying during a game you were watching? Now you'll be able to listen to what commentators Adrian Healey, Jon Champion, Martin Tyler and Andy Townsend have to say. Voices heard in the video game now include the sensational Sébastien Hélyary, the charismatic Olivier Hernandez, and the popular Jonathan Pearce. Also featured is the inimitable Jay-Z, who now appears on the pitch and leads the team through the pre-match warm-up. The commentary teams will report on the action as it is happening, talking about the emotional ties that exist between players and the pressure of matches.
