You can also set a password and prevent certain functions. Tenorshare ReiBoot Crack is designed to help you get into iPhone DFU mode and unlock your iPhone at any time. Run the software, it will show a small graphical user interface with a few choice buttons. The first item under the options section is "iPhone DFU Mode". Press the button below the "iPhone DFU Mode" and it will start the process. There is a three or four button style interface for it. There is a red button for enabling the iPhone DFU, a blue button for iPhone DFU Mode and a button with a headphone symbol for USB modem. The interface is very easy to use; there's only a little information need to be read before being able to enter the DFU mode. There is an option to change the interface language. Run all the 3 steps through the software and you will be able to enter the DFU mode. To reset your iPhone, first disconnect it from the computer. Turn off the iPhone. Then, hold the power button for 10 seconds to turn the power off. Then press and hold the home button for at least five seconds until the Apple logo appears on the screen
